# STEP BY STEP STEM: APPLE BOATS

## SUPPLIES:

1. APPLES
2. PLASTIC BIN OR DEEP TRAY
3. SPRAY BOTTLES
4. TOOTHPICKS
5. PAPER TRIANGLES

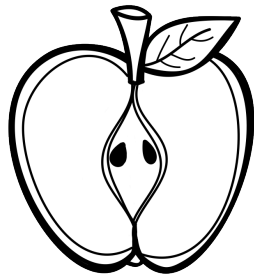

## TIPS:

- HAVE AN ADULT CREATE THE SAILS FOR THE BOATS.
- CONSIDER LAMINATING THE PAPER TRIANGLE TO MAKE IT REUSABLE.
- ADD A NOT SLIP MAT UNDER THE BIN OF WATER, SO THAT IT DOES NOT GET PUSHED BACK AND FORTH ON THE TABLE.
- FOR MORE OF A CHALLENGE, CUT THE APPLES INTO QUARTERS INSTEAD OF HALVES. THIS WILL MAKE IT MORE DIFFICULT TO SPRAY THE APPLE AND ENCOURAGE EXTRA FINE MOTOR STRENGTHENING.

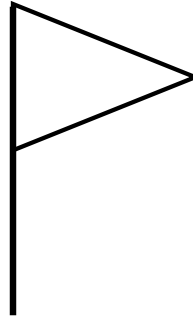

# APPLE BOATS

## STEP 1

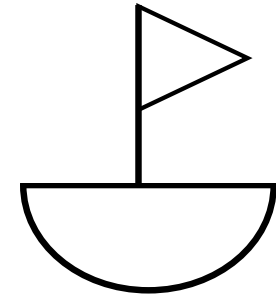

Cut the apples in half.

## STEP 2

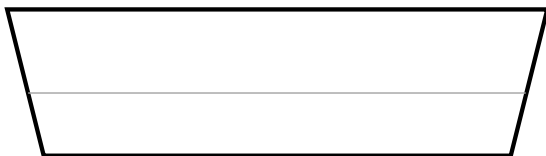

Cut a small paper triangle and tape it to the toothpick.

## STEP 3

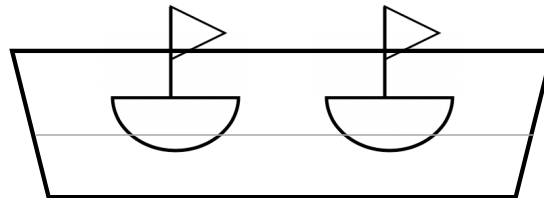

Add the toothpick sail to the halved apple.

## STEP 4

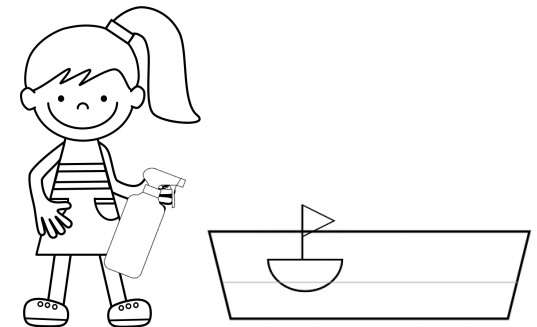

Add water to a bin. The water does not have to be too deep.

## STEP 5

Place the apple boats in the water and push them around.

## STEP 6

Use the spray bottle to spray the apple boats across the bin!
